

## **INSTRUCTIONS**

For items designated **Voting** by NCWM:

- Express regional support as written
- Express regional support with recommended modifications
- Express regional opposition or concern and a recommendation to downgrade to Informational, Developing, or Withdrawn, **OR**
- Take no regional position on the item.

For items designated **Informational, Assigned** or **Developing**:

- Provide comments and suggestions to improve the item and, if appropriate, recommend a status change,
- Recommend the item be withdrawn with justification, **OR**
- Indicate that the item was reviewed and there were no comments.

For **New Items** which have no assigned status:

- Forward the item to NCWM with comments and recommended status of Voting, Informational, Assigned, Developing, **OR**
- Do not forward to NCWM and provide justification for this action. In this instance, you will recommend a Withdrawal of the item in case it was forwarded to NCWM by another region, **OR**
- Select the final option of “No Recommendation”. This option is used when the region lacks insight on whether the proposal has merit. The proposal will not be forwarded to NCWM by your region.

## **CWMA Specifications and Tolerances (S&T) Committee 2020 Interim Meeting Report Template**

Mr. Jason Smith, Committee Chair  
South Dakota

### **INTRODUCTION**

The Specifications and Tolerances (S&T) Committee (hereinafter referred to as “Committee”) submits its Report to the Central Weights and Measures Association (CWMA). The Report consists of the CWMA Agenda (NCWM Carryover and NEW items) and this Addendum. Page numbers in the tables below refer to pages in this Addendum. Suggested revisions to the handbook are shown in **bold face print** by ~~striking-out~~ information to be deleted and **underlining** information to be added. Requirements that are proposed to be nonretroactive are printed in **bold-faced italics**.

Presented below is a list of agenda items considered by the CWMA and its recommendations to the NCWM Specifications and Tolerances Committee.

<p><b>Comments and justification for the regional recommendation to NCWM:</b> <i>(This will appear in NCWM reports)</i></p> <p>Russell Vires (Mettler-Toledo, LLC) gave a presentation to the S&amp;T committee on this item. The presenter answered a number of questions from the committee and from both regulatory officials and industry representatives on this item. A concern that was highlighted questioned if placing the reference scale into high resolution, the reference scale may not comply with the N max requirement. Another concern of regulatory officials was the need to test the reference scale to used capacity with known field standards. This could require an additional burden to both the regulatory officials and the device owners. Russell Vires commented that this item was still being developed with the goal of presenting a final version at the NCWM meeting in January. Not having seen the final version of the item, the committee recommends this item remain a developing item.</p>

<b>Comments and justification for the regional recommendation to NCWM:</b> <i>(This will appear in NCWM reports)</i>

The S&T committee heard numerous comments of concern from regulatory officials on this item. The key issues addressed were the 10-year exemption, the blanket exemption from the EVFS codes, and the competitive advantage this item may present to the industry. We feel this item has merit and feel a more appropriate course of action would be to request exemptions from specific requirements vs. a blanket exemption. We recommend this item move forward as a developing item.
